CSL Exclusively Launches the HTC TyTN II PDA Phone

Creating a High Speed Mobile Communication Experience With CSL's Superior Mobile Broadband Network

Hong Kong, 13 September 2007 – CSL exclusively launches the new HTC TyTN II, HTC's first PDA Phone supporting a data transmission rate of 3.6Mbps. With CSL's superior, territory-wide HSDPA Mobile Broadband network, customers can enjoy the advantages of CSL's comprehensive mobile services anytime, anywhere, at high speed.

Enables customers to enjoy diversified mobile services with Mobile Broadband Service

With the HTC TyTN II and CSL's superior Mobile Broadband network, customers can surf the Internet, download email and a huge range of applications with faster and more stable access. CSL's customers can enjoy a wide range of value-added services including the first-ever "DRM-free Full Song Download", "Windows Live Messenger", "3G Mobile TV" and video steaming, etc; and customers can use CSL's unique "Info Easy Reader" service, to browse news and other information from major media anytime, or to have the latest headlines conveniently pushed to their handhelds at intervals, allowing them to capitalize on every business opportunity and to make the most of their leisure time."

CSL is dedicated to providing high quality mobile services. With the HTC TyTN II, customers can benefit from CSL's extensive international data roaming service, which offers 3G and HSDPA coverage in 91 and 80 destinations, respectively, enabling customers to stay connected without any geographical constraints.

Brings a new experience in mobile communication

The exceptionally stylish HTC TyTN II, equipped with the most advanced Windows Mobile 6 Professional functions, which makes the HTC TyTN II work as efficiently as a mini-desktop computer, is perfectly suited to the varied needs of CSL's professional and business customers. The HTC TyTN II has built-in Microsoft Office Mobile applications, enables customers to edit Word or Excel documents and view PowerPoint files. With the HTC TyTN II, which supports Microsoft Direct Push Email and HTML email, customers can download emails and document files anywhere, anytime. Customers also can use Windows Live Messenger to stay connected with friends. In addition, the HTC TyTN II supports Mobile Broadband, 3G, EDGE and Wi-Fi networks, and has built-in GPS (Global Positioning System) functions.

The HTC TyTN II is equipped with a Tilt up 2.8" LCD touch screen, which is the first of its kind, sliding QWERTY keyboard and handwriting recognition. With the 3.0 Mega pixel auto-focus camera, second camera for telephony and the built-in Windows Media Player/MP3 Player, customers can now enjoy the most advanced mobile entertainment.

The HTC TyTN II is available at a special price, as low as \$2,980

From now on, new CSL customers who subscribe to a CSL Monthly Rate Plan and a Mobile Broadband Service Package/Plan with a total monthly fee of over \$200 can purchase the HTC TyTN II for \$3,980 (list price: \$6,180) or the HTC P3600i for \$3,380* (list price: \$5,480) respectively. Customers subscribing to the \$538 Mobile Broadband High Usage Service Plan can purchase the HTC TyTN II for \$2,980 or the HTC P3600i for \$2,780* respectively.

About CSL

CSL is the largest operator in mobile communications market in Hong Kong. Combining technical and engineering excellence with an in-depth understanding of the mobile market, it translates leading-edge technologies into customer-focused solutions that meet the needs of different market segments.

In April 2006, a joint venture company, CSL New World Mobility Limited to own CSL and New World PCS Limited, was formed. CSL New World Mobility Limited is 76.4% beneficially owned by Telstra Corporation Limited and 23.6% beneficially owned by New World Mobile Holdings Limited.

CSL is acknowledged as the first mobile company in Hong Kong to employ a distinctive market segmentation strategy. With a commitment to deliver quality, innovative and relevant services to all its mobile customers, CSL markets its services to various segments through its mobile brands: 1010, One2Free and New World Mobility.

CSL launched its mobile services early in 1983 and today operates a world-class GSM / WCDMA network. CSL also offers comprehensive pre-paid mobile services and its international roaming service provides the widest coverage by allowing mobile connectivity in more than 250 destinations around the world.

CSL became the world's first operator to introduce a High Speed Circuit Switched Data (HSCSD) service in May 2000 and, in November 2000, it launched the first commercial General Packet Radio Service (GPRS) in Hong Kong.

CSL also introduced Asia's first Multimedia Messaging Service (MMS) in March 2002 and it was also the first in Asia to deploy EDGE (Enhanced Data Rates for GSM Evolution) in September 2003. In December 2004, the Company launched its 3G and Wi-Fi services. And HSDPA (High Speed Downlink Packet Access) service was launched in September 2006.

CSL launched Asia's first 3G Video Sharing Service in November 2005 and Hong Kong's first "3G Mobile TV" in February 2006.
